

## EARLY RELEASE SESSIONS – 2023-24

Throughout the year, we will use ER time for prof. dev. opportunities, curriculum meetings and trainings as well as allowing staff time to work in teams and on individual curriculum and teaching responsibilities. We will try to schedule opportunities applicable to multiple disciplines to make the learning relevant and timely, however, when there are dates with unscheduled time for your specific needs or discipline, the time should be used for grade/dept. meetings, curriculum planning, family engagement (phone calls/emails to parents about student progress), completing required staff video trainings, or other professional development that may help you in your content area. We continue to be grateful to the board and community for supporting this release time.

<b>October 11</b>	<b>Activity</b>	<b>Who</b>	<b>Location</b>	<b>Facilitator(s)</b>
