

Deerfield High School TIME CAPSULE (ARTIFACT DISPLAY)

What would you include in a time capsule to describe the aspects of life at our school? In other words, what material objects describe/depict the culture of your school? When deciding what to include, be cautious not to include just the obvious school logo or mascot gear, but also what an archaeologist excavating later in time might find and use to interpret the culture of Deerfield High School. Write a 2-3 page (double spaced) essay describing the physical appearance of the objects and explaining their cultural meaning. Then, try to come up with ways in which the objects could be "misinterpreted" by someone in the future (much like the *Motel of Mystery*).
