Questions – Chapter 6 – Part 2

1. Refer to Figure 6-2. List all of the skeletal differences between humans and great apes

2. Refer to the Research Frontiers box called "New finds of Early 'Robust' Australopithecines are Puzzling." How is *A. aethiopicus* related to *A. robustus*? What is convergence? How does convergence possibly explain similarities between *robustus* and *H. erectus*?
