K-12 GUIDANCE & COUNSELING

A guidance program that bears directly upon the adjustment, orientation, and development of individual pupils, will be incorporated into the curriculum in kindergarten through Grade 12. The services offered in this program are concerned with the developmental, the protective behaviors, and the remedial aspects of education. The program exists for all students who are seen as unique, significant persons with potentials, rights, and responsibilities. Guidance services are designed to supplement and complement the instructional and administrative aspects of the educational process and are considered an integral part of this total process.

The district's guidance and counseling program will be under the supervision of the building administrators and will be carried out by personnel certified in guidance and counseling at the appropriate levels. Guidance services are available to all students through a classroom, group, or individual process.

The Deerfield School District does not discriminate against pupils on the basis of sex, race, religion, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical mental, emotional, or learning disability or handicap in its educational programs or activities.
