

## ***Chapter 6 Questions 3***

1. Refer to the Research Frontiers box titled “When Did Humans Populate the New World?” (Pg. 108-109). From where do Native-Americans come? During what time periods could humans have crossed Beringia? What is the first known culture in the Americas? What is the conflict on dating at the Meadowcroft Rockshelter? Could Humans have traveled across the Bering Strait by water? What is the evidence for that?

2. What are the apparent differences between Neandertal culture and early *Homo sapien* culture?

2. Compare indirect percussion flaking to pressure flaking.
